### **IBSC Club Hut**

Peter reported that contact had been made with Nevis Range who were supportive in principle. A formal approach was now required to the CEO of Nevis Range with accompanying summary document. After this, key stakeholders needed to be contacted and promptly to ensure they hear of the project first hand.

Donald, Kev and Fiona had visited potential sites near and south of the Braveheart Chairlift. The higher site at 900m altitude was ruled out due to its exposed location and it being within the Special Area of Conservation boundary. Other potential sites were thought to be more favourable if outside the SAC and closer to the ski area whilst maintaining a sense of detachment.

It was agreed that a summary document be drafted which contains all the key elements of the project and from this a one page summary be produced.

### Action points

1. **Various** – *Summary document to be drafted.*
2. **Peter** to produce one page summary document once the more detailed information had been assembled.

### **AOCB**
